

Ellex Super Q Nd: Yag Laser

Reconditioned, calibrated, patient ready

A superior YAG Laser for performing Capsulotomy and Iridotomy procedures. Energy levels from 0.3mj -10mj, three-step burst mode and red diode adjustable aiming beam.

TESTIMONIAL

I found a terrific blend of service and price. The Ultra Q yag laser is outstanding, looks new, and we also bought an Orbscan IIZ. We didn't know how to set it up or use it. UEE provided a friendly and knowledgeable technician that installed it and trained our staff. It was a wonderful experience.
